<input type="checkbox"/> Deep Burial	OR	<input type="checkbox"/> Cremation	Cremation Service Provider:			

Consent

I am the owner of the above animal or am legally responsible for the animal and have the authority to give this consent.

I have requested the euthanasia of the animal to be performed by my veterinarian and I give permission for the release of the body of the animal to The University of Queensland to be used by the University's School of Veterinary Sciences.

I have received and read a copy of the University's UQ VETS Body Donor Program and Veterinary Autopsy Service brochure. I understand that the animal will be euthanased by my veterinarian using the usual procedures utilised at my veterinary clinic. The animal's body will then be collected and transported in a sealed container to the University of Queensland, as per legislative requirements. Here, the animal's remains will be used for educating the University's Veterinary Science and Veterinary Technology students.

I give permission for the animal's health history to be given to the University's students in order to enhance their learning.
